

## „YU UKT ACTIVITY“ CONTEST RULES

**Contest organizer:** Savez Radio-amatera Vojvodine – SRV

**Purpose of the contest:** is popularization and presence ham radio on VHF and UHF frequencies.

**Contest time:** every third week of the month from January to November (11 periods) from 07:00 GMT to 12:00 GMT.

**2021: January 17, February 21, March 21, April 18, May 16, June 20, July 18, August 15, September 19, October 17, November 21.**

**Operating frequencies:** 144MHz, 432MHz i 1296MHz in accordance with the band plan I IARU region and existing country-specific regulations and regulations related to every license.

**Categories of contest:** Multi op YU (more competitors, club stations), Single op YU, FM YU, non YU (regardless of category), especially for all three frequency bands. One call sign can only be registered in one of the categories for one frequency band.

144MHz	A YU multi	D YU single	G YU FM	I non YU
432MHz	B YU multi	E YU single	H YU FM	J non YU
1296MHz	C YU multi	F YU single	-	K non YU

**Types of modulations:** SSB, CW i FM, in categories FM is only allowed FM types of modulations while in the other categories all three types of modulations are allowed.

**Participants:** all licensed YU ham radio stations and non YU ham stations which will adhere to the rules of this contest and ham radio spirit.

**Max transmitter power:** in accordance with the license and national regulations

**Rules of contest:** during the contest exchanged call sign, RPT, number of QSO, WW QTH locator and confirmation of QSO for each frequency band. Number of QSO start for each period with a number 001 and for each connection made it increases by 1. QSO made by reflection from the Moon (EME), via meteor scatter (MS), via satellite, via transponder or via repeater or *cross-band* QSO they are not valid. QSO by reflection from AP are allowed.

**Assistant:** Use of ON4KST chat or the like is allowed during the competition to schedule connections but it is forbidden to change the data that are entered in the contest log.

**Scoring:** each km counts as 1 point for each frequency band separately. The same call sign is allowed in one period, done only once on each individual frequency band regardless of the type of modulation.

**Errors:** any error in receiving: the call sign, report, connection ordinal number and WW QTH locator cancels points for a given connection. Also, a double connection does not bring points.

**Disqualification:** In case some gives wrong information WW QTH locator, writes QSO, works beyond the obtained license, deliberately interferes with other radio amateurs in their work as well as gross violation of competition propositions.

**The UKT commission of SRV is responsible for the accuracy of the application of this contest rule.**

**Diaries:** Contest log in EDI format is necessary to send no later than 7 days after organizing the contest (next week after the contest until 22:00 GMT) to the robot organizer's address: <http://hamcontest.rs>. Logs arriving later will be included in the control logs.

**Awards:** For each individual range, for each month and type of work scoring will be done so that the first place winner in each category gets 100 points while others get the number of points depending on the percentage of the achieved result. At the end of the year, a summary list will be made for all categories of work and months and all placed receive a diploma in electronic format. In order for a station to be included in the placement, it is necessary to have at least 6 placed placements per range (participates in at least 6 periods of contest on one frequency band in one category).

At the end of the year, awards in the form of plaques will be given to radio stations that will be ranked first in their category. The plaques will be distributed at the **Year's Conference of SRV**.
